The sewer is broken at the depot, and during the past week the spot where the hotel conveyances stand has been nothing but mire and water.

There are mountains of tan bark stacked up at the depot. Pace & Carson have shipped 500 cars. How long will the forests last at this rate?

Work on the Greenville Railroad is being pushed. Matters are coming to a point in reference to this project, which promise interesting developments in the near future.

Our community is at present favored in harboring several musicians of note. Prof. Theodor Saul, the well known piano and organ virtuoso of Charleston, whose reception at the courts of Germany and Holland last summer was so flattering and so enthusiastic, will remain here a few days longer enroute to Saratoga.

Sheriff Rhodes, A. A. Gates and W. A. Garland are a committee appointed by the Board of Trade to call on the county commissioners and see what can be done relative to getting the Greenville Road into condition to travel. South Carolina is doing its share as far as the state line and it is deemed imperative that Henderson county puts its part of the road into condition fit to be used.

According to reports received at this office, the Sapphire Inn was destroyed by fire early this morning.

Hal Ripley has the hunting and fishing concessions over 22,000 acres of the finest land for those purposes in the country. He recently had a party of five Asheville gentlemen up there, who were more than pleased. The property adjoins Vanderbilt's estate, and the fishing and hunting are said to be unsurpassed. A comfortable house adds to the attractiveness of the outing, and Mr. Ripley says that strict attention is paid to the needs of the inner man.

Beryl Rubinstein, the most wonderful seven year old musical genius who is startling the world with his astonishing performances on the piano will give a piano recital at the opera house here next Monday evening July 30th at 8:30. Beryl has become famous all over the states in an extraordinary short time. He is quoted by the most eminent authorities and the different chataquas before which he has played this season as America's greatest offering to the realm of music. He played, in San Francisco just before the earthquake and was to give his second recital on the very day of the fire. He is the most interesting and charming child before the public today, his endorsements from the public and press are of the highest character, the people of Hendersonville and the visitors to the city have a musical treat in store for them, and should not fail to avail themselves of the opportunity.

Georgia Editors.

Hendersonville was a mass of editors on Monday, with over a hundred of the Georgia weekly Press association in town, and as always the public spirited citizens of our town gave up their business to entertain the stranger within her gates, and to speak as it being a pleasure would be putting it mild. It seemed to be a joint outing of our most prominent citizens with the Georgia editors. The association reached here Monday morning at 8 o'clock from Royster Springs, Ga., via Southern Railway and were met at the depot by a committee representing the Board of Trade and the city Council. From the depot they were driven to the Hotel Gates where they were served breakfast. After breakfast the Hotel Lobby reminded one of an old time hand shaking. They were then invited by the Committee to the main feature of the day, a dummy ride to Laurel Park, and after enjoying to utmost the thousands of beautiful views combined with the natural beauty surrounding them it was the unanimous opinion of every one that Hendersonville is the gem of the mountains. From Laurel Park the party returned to the Hotel Gates where they were the guests of the city at a banquet over which Capt. J. W. Wofford president of the Board of Trade presided in his usual genial way.

Captain Wofford as President of the Board of Trade welcomed the visitors to our town and he told them that this was not the first time that he had been with Georgians. He spoke of his intimate acquaintance with the boys of Tom Cobbs, and Wofford's brigades in the army of Northern Virginia and how well they measured up to the requirements of the confederate soldier and at all times whenever duty called "they went." He spoke of the Lamented Lougstreet and McLaws, and of the selfishness of Georgians since the war, and instanced the work of Gen. Gordon in the redemption of S. C. How it was done by his eloquence and the influx of voters from beyond the Savannah river, etc. He then introduced W. A. Smith who made the main address of welcome. His address was well received by the Georgians and was cheered throughout its delivery. He spoke of how Georgia had sent him here 30 years ago to prepare for this very occasion. He spoke at length of the many advantages of this section of N. C., and he opened wide the gates and portals of this town to the Georgians as only Bill Smith can do. Mrs. Gen. Jas Longstreet postmistress at Gainesville, Ga., was among the crowd of editors and made many friends while here.

Col. Colman, pres. of the association responded in a forceful and eloquent speech, acknowledged in behalf of the editors the many kindnesses accorded to them and would ever hold the town of Hendersonville in grateful remembrance of this occasion. If your scribe is not mistaken the day will redound to the benefit of this town and be known as the red letter day. The afternoon was taken up with reading, driving, dancing, etc.

The association left Hendersonville for Cahntanooaga Tenn., from there they separate and go to their different homes. May the memory of the Ga. Editors of their stay in Hendersonville be as pleasant as it was our pleasure to have them.

Letters have been written to all the boarding house keepers of Hendersonville requesting them to telephone the secretary's office of the Board of Trade each morning, stating number of rooms vacant. A list will then be made of these rooms and given to all the livery men. In this way the livery people will know exactly just what rooms are vacant, and where they are located, and it will operate, it is believed, greatly to the advantage of all concerned.
